

# Padding in Bootstrap

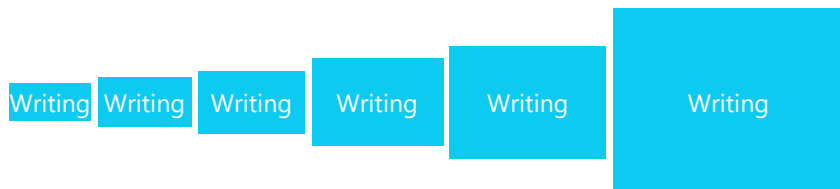

## Padding Sides

## Padding Sides (More than One Side and Various Amounts)

## Padding (Same Amount to All Sides)

# Margins in Bootstrap

## Margin All Sides

## Margin One Side

## Margin Multiple Sides

## Margin Auto

Remember with this example, the yellow part just shows the margins so they are visible. Normally, you will not see anything in the yellow areas of any of these examples. So if you wanted the blue to take up more space, you would make the width bigger in the style property. On a typical webpage, your centered material (in this example) would look like this:
